93 yuriy glukhov on lebanese-israeli agmt: western media call this agmt a triumph of peace but it is strongly criticized by lebanese and other arab countries. unsc demanded israel's unconditional withdrawal from lebanon on which it launched unprovoked attack last june but agmt masterminded by shultz says nothing about deadline for withdrawal of israeli troops. many arab countries feel that under agmt lebanon has been assigned role of bridgehead for israelis. 102 igor sheftunov, saying that accusations against tudeh party
in iran are coupled with attacks at marx's teachings; discussing
success of marxism since formation of first soviet government by
lenin and says that marx gave workers weapon of strength in their
struggle with exploiters. workers in many countries achieved
socialist revolutions; in iran, too, 4 years ago shah's regime
was overthrown. But iran's rightist forces succeeded in
stopping revolutionary process and various bills such
as bills on land reform and foreign trade nationalization
there were approved by majlis. sheftunov continues by discussing
how bourgeoisie is getting stronger in iran and quotes tudeh
party statement to this effect. he then goes on to refer to
persecution of tudeh party and to anti-communist
hysteria and concludes by discussing tudeh party's support
for iran's constitution and success by marxism in world today.
